# 2016 DNR Urban Forestry Matching Grant Application

## Project: EAB Treatment and Canopy Improvement

### Component 1. EAB Treatment -- Component Cost \$19,200

- Fourth year of EAB treatments of all healthy, well-formed public ash
- Treatment program is on a 3 year cycle
  - 2016 is first year of second round
- 156 trees to assess and a subset of those to treat: ~2300 DBH inches
  - Specimen trees and Save-an-Ash trees
- Injections will be done by city public works and parks employees
- 2015 cost was \$6.97 per diameter inch
  - Assessment, insecticide, materials, labor, equipment

The long term outcome will be the preservation of mature trees and canopy. The selective removal of unhealthy or poorly-formed ash trees will slowly reduce the number in the urban forest avoiding an acute negative impact on the forest canopy and provide the opportunity to continue to improve the diversity of our forest.

- Annual Event usually at Mckee Farms Park.
- 8 AM – 1 PM Saturday, May 7, 2016

### **Grant Project Ranking**

Urban Forestry Grant applications will be ranked according to how well the projects align with the DNR program objectives and priorities for last year.

These include:

- A) Long-term effect on urban tree canopy and the benefits it provides;
- B) Emerald ash borer plans or insecticide treatment to preserve canopy;
- C) Alignment with DNR urban forestry program goals;
- D) Developing or enhancing municipal tree management programs; and,
- E) Projects that could serve as a model for others to adopt.

While these priorities do not preclude funding any eligible project, applications that address the 2015 objectives and priorities will rank higher compared to those that do not.

TITLE: Exemption from the County Library Tax

---

**Background:** This is an annual resolution to exempt the City of Fitchburg from the Dane County Library Tax. Now that we are providing library service to city residents, we no longer need to pay the county to provide these services. This exemption is provisional, due to the fact that we do not yet meet all of the Dane County Library Standards. We plan to meet all of the standards by the end of 2014.

**TITLE: A RESOLUTION GRANTING AN UNDERGROUND ELECTRIC RIGHT-OF-WAY GRANT TO MADISON GAS AND ELECTRIC COMPANY ON OUTLOTS 24, 25, 26 AND 28 THIRD ADDITION TO NINE SPRINGS, CITY OF FITCHBURG, WISCONSIN**

---

### Background:

In the fall of 2013 the infrastructure for the Third Addition to Nine Springs was constructed. Although the plat created utility easements for electric and telephone cables and other facilities, the utility companies need additional paths to make connections for street lights and to connect to adjoining buildings. Staff has valued the easements on Outlots 24 and 28 at \$434.13 and the easements Outlots 25 and 26 are for the benefit of the City to get service for street lights. MGE has agreed to the compensation for Outlots 24 and 28.

### **Third Addition to Nine Springs**

Summary of charges for easements:

OL 24 Area =  $109 \times 5 = 545$  SF @  $\$0.29/\text{SF} = \$158.05$

OL 25 Area =  $84.73 \times 6 + 20 \times 6 = 182$  SF - No charge since this line is only to serve street light

OL 26 Area =  $10 \times 117 = 1,170$  SF - No charge since this line is only to serve street light

OL 28 Area =  $8 \times 119.01 = 952$  Sf @  $\$0.29/\text{SF} = \$276.08$  if this is a trunk line. If this is only to serve the street light then charge does not apply

Note: The value of the easement at  $\$0.29/\text{SF}$  calculated by taking 25% the land value since the easement only removes a portion of value from the existing land. The existing land value of  $\$1.16$  per SF was obtained from recent purchase land in the area and this number has been used in our annual reporting of land and asset values to meet GASB 34 compliance.

**TITLE: A RESOLUTION TO SET THE 2016 SOLID WASTE COLLECTION RATES**

**Background:** This resolution sets the 2016 Residential Unit Solid Waste (Refuse, Recycling, Yardwaste, and Brush) Collection Charge and the 2016 Apartment/Condominium Unit Brush Collection Charge. A spreadsheet analysis on the effect of the proposed rate is attached.

1. Page 1 includes the projected contractor costs for 2015 and 2016,
2. Page 2 includes the projected revenue and expenses for 2016, and
3. Page 3 includes an analysis that various unit charges would have on remaining fund balance projected at the end of 2016.

The level of service is proposed to be the same for 2016 as it has been for the last several years (weekly refuse collections, every other week recycling collections, 4 yardwaste collections and 14 brush collections). The proposed \$142/ household fee represents a ~0% increase above the 2015 fee and leaves ~\$257k in projected fund balance reserve at the end of 2016 (approximately 29% Reserve of Annual Budget).

### Background:

Sub-Zero Wolf, Inc. has submitted a proposed CSM for expansion of their plant and future development that includes, but is not limited to, Lot 1 of CSM 09217, Lot 1 and 2 of CSM 10031, and Lot 2 of CSM 11021. The land division ordinance requires the subdivider to enter into a contract with the City for the installation of public improvements in a CSM. A subdivider's agreement for public improvements within the CSM cannot be fully drafted until construction plans for all public improvements are submitted to the City. To date, the City has not received these plans.

A public water main is needed for looping and fire protection purposes on Lot 2 of CSM 10031 in order for Sub-Zero to obtain a building permit. An agreement for subdivision improvements is required prior to installation of public improvements. In efforts to expedite installation of this main, a separate agreement for this water main has been drafted. An agreement for subdivision improvements for the remaining public improvements within the proposed CSM will be submitted for approval once construction plans have been submitted to the City for review.

**Subject:** Licensed premises

Good Afternoon William,

Sorry I wasn't able to respond last week but I was out of town for training and I also had a day off. Anyway, I had a chance to look at your blueprint and state statutes regarding your fitness facility getting an alcohol license.

Please look at state statute 125.32(3m) below:

**(3m) LIMITATIONS ON OTHER BUSINESS; CLASS "B" PREMISES.** No Class "B" license or permit may be granted for any premises where any other business is conducted in connection with the premises, except that this restriction does not apply if the premises for which the Class "B" license or permit is issued is connected to premises where other business is conducted by a secondary doorway that serves as a safety exit and is not the primary entrance to the Class "B" premises.

No other business may be conducted on premises operating under a Class "B" license or permit. These restrictions do not apply to any of the following:

125.32(3m)(a) (a) A hotel.

125.32(3m)(b) (b) A restaurant, whether or not it is a part of or located in any mercantile establishment.

125.32(3m)(c) (c) A combination grocery store and tavern.

125.32(3m)(d) (d) A combination sporting goods store and tavern in towns, villages and 4th class cities.

125.32(3m)(e) (e) A combination novelty store and tavern.

125.32(3m)(f) (f) A bowling center or recreation premises.

125.32(3m)(g) (g) A club, society or lodge that has been in existence for 6 months or more prior to the date of filing application for the Class "B" license or permit.

125.32(3m)(h) (h) A movie theater.

125.32(3m)(i) (i) A painting studio.

After looking at the statutes, the City of Fitchburg will have to determine if your business meets the definition of a recreation premises (125.32(3m)(f)). If so, then you would be able to get a Class B fermented malt beverage/intoxicating liquor license for your business. I know that your business is a little more unique since it is only open to members and not open to the general public. I have checked with some co-workers and they have told me that there are some municipalities in Wisconsin that have issued licenses to fitness centers and that there are some that have denied fitness centers an alcohol license. Since it is the municipality that issues alcohol licenses, it will be the municipalities determination in how they interpret the statute. The main thing is that the municipality must be fair and consistent with all licensees in the same or similar circumstances.

I did not find any other statutes that would relate to your business and you being issued an alcohol license.

Please let me know if you have any further questions regarding this matter.

Thank you,

On August 08, 2015 I met with the owners of Mad Power located at 5264 Verona Road. The owners indicated their intent is to offer alcohol on a very limited basis. The alcohol would be limited to the nail spa area and a small seating area located where the "old bar of the Dry Bean Saloon" is located in the building design.

The nail spa area would allow customers could have a glass of wine as their nails are done. A max of three people at a time are able to be seating in the nail spa area.

The seating area (old bar area) would allow beer or wine after a workout and will seat approximately 12 people. The seating area was described as being designed to be an elevated seating are above the main gym floor located adjacent to the "back bar" from the former Dry Bean Saloon. Amy one of the owners and the yoga instructor indicated her intent is to retain the memories of families to previously brought their families to dinner at the Dry Bean.

The owners indicated the capacity was for the business has been reduced to 160, however they intend to have no more than 85 people on the premises at any time.

**Public hearing and consideration of Conditional Use Permit request, CU-2066-15, by William Kohl, agent for MadPower Training Center, LLC, to allow for sale of beer and wine in the private fitness studio at 5264 Verona Road, Lot 2 Willow Run.**

**Site Details:**

Acres: ~1.2

Existing Use: Mad Power Training (yoga, nails, etc)

Current Zoning: B-G (General Business)

**Background & Application Description:**

MadPower Training Center, located at 5264 Verona Road (former Dry Bean building) is requesting approval to serve beer and wine at the private fitness and yoga club.

**Staff Evaluation:**

MadPower Training is located in the former Dry Bean building at 5264 Verona Road. The business is a hot fitness studio that offers its members fitness, yoga and barre classes. As part of the remodeling for the new business, the owners have decided to preserve the bar as a front desk; they would also like this to be an area where members can sit and enjoy a glass of wine or beer. The facility is not open to the public and is by membership only.

**Section 22-640(c) of the Zoning Ordinance identifies the standards by which the Plan Commission shall review conditional use permits. No conditional use shall be approved by the plan commission**

**unless the commission shall find:**

- (1) That the establishment, maintenance, or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.
- (2) That the conditional use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood.
- (3) That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
- (4) That adequate utilities, access road, drainage and/or necessary facilities have been or are being provided.
- (5) That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.
- (6) That the conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located.

Staff has not identified any concerns with this request.

**Consistency with Comprehensive Plan:**

Future Land Use Plan: BUS (Business)

Staff has not identified any inconsistencies with the proposed CUP and the Comprehensive Plan.

**Staff Recommendation:**

Staff recommends approval of CU-2066-15 with the following conditions:

- 1.) No other permit or approval is waived or deemed satisfied except for the approval provided herein.
- 2.) Applicant shall obtain appropriate liquor license approvals prior to serving any wine or beer on the property.
- 3.) Serving of any beer or wine is limited to members of the private fitness club.

**TITLE: An Ordinance Amending Chapter 70, Section 70-309  
Forfeiture Schedule**

## Background:

When initially enacted the fine schedule for remediation and rehabilitation made sense. As it is clear that we are edging closer to an end to national prohibition, it's time to revisit the fine for possession of marijuana to more closely reflect our values and enforcement priority. Study after study show that those affected by the fines are disproportionately minority, but also Dane County's advisory referendum showed very clearly that this is no longer an area of concern for most people. This update adheres to state and federal law, but places the proper emphasis on the enforcement of the current prohibitive policies. The current forfeiture for possession of marijuana with costs is \$1321.00. This ordinance reduces the total forfeiture to \$62.26.

Patti Anderson  
City Clerk  
City of Fitchburg

Fitchburg, WI 53711

Dear Clerk Anderson:

This letter is your notice that I am today vetoing the Common Council motion directing the City Administrator and staff to work on a developer agreement for tax incremental financing based on Benjamin Investments' TIF request, which was passed at the Common Council meeting of August 25, 2015.

I support Benjamin's project, but object to the allocation of risk and expense. I have informed Dale Benjamin of my decision and a provided counter-proposal for his consideration. The proposal has these basic terms:

- i. TIF support for a gap based on analysis of a project with approximately 120 surface and under-building parking places, but no underground parking outside the building's footprint. I do not object to Benjamin building excess underground parking, but I believe that any excess underground parking should be funded privately, not by the taxpayers. (Fitchburg's parking requirement based on the building's floor area is 181 spaces. Benjamin's original proposal was for 198 spaces, including 78 spaces outside the building footprint. The Plan Commission has the authority to waive parking requirements. Such a waiver is appropriate for this site with all-day, every-day transit service.)
- ii. TIF support for a rental guarantee of 50% of the third floor until the space can be leased to a tenant, for up to two years. (Benjamin's original proposal was for a 100% guarantee for one year.)

I believe that my proposal better shares cost and risk between the private developer and the taxpayers. I will work diligently with the developer to reach an agreement that allows ground-breaking on a schedule that meets the requirements of Benjamin's potential tenants.

I ask that pursuant to the requirements of Wisconsin Statutes 62.08(c), you present this veto to the Council at its next meeting by placing it on the agenda for discussion and possible action.

Sincerely,

Steve Arnold  
Mayor

**TITLE: A Resolution Directing Staff to Work on Uptown Implementation**

---

Background: Exact Sciences, planning a major project in the Madison area is due to make a decision on project location in the near term. As they have been progressing with their negotiations with the City of Madison, there is some public uncertainty whether the Judge Doyle Square negotiations will reach an agreement. In the case that they don't, The City of Fitchburg should have its work complete to be sure that should Exact Sciences wish to pursue a location in Uptown, we are ready to respond in as short a timeframe as possible. This resolution directs staff to complete deliverables in order to ensure that Fitchburg can be ready to respond to any potential proposals or requests. It envisions using the data found for the next potential end user as well should exact sciences choose to go elsewhere, so as not to have a limited shelf life.
