

2017 CONSTRUCTION & DEMOLITION REUSE / RECYCLING GUIDE

LAST REVISED AUGUST 25, 2017

The City of Fitchburg has a proud tradition of encouraging reuse and recycling of construction and demolition waste materials. Reuse and recycling options and information are constantly changing. We encourage anyone with suggested revisions to contact us at publicworks@fitchburgwi.gov or 270-4260 to help us keep this guide current. A more thorough recycling guide for materials in addition to those typically found at construction sites is available at: www.fitchburgwi.gov/solidwaste.

This information is being provided as a public service to help reduce the amount of materials landfilled and increase the conservation of resources. Any or all of these recyclers may charge fees. Please call before taking materials to them to determine fees, hours of operations, and the exact materials accepted.

Please note that Dane County's new Construction & Demolition Recycling Facility opened on February 1, 2016. Visit their [website](#) for details on C&D materials they accept for recycling.
