

2021 RECYCLING GUIDE

FOR

The City of Fitchburg, WI has a proud tradition of encouraging reduction, reuse, and recycling of materials. We hope this Recycling Guide will prove useful to you as you consider different options (reduce, reuse, recycle, rethink) for your unwanted items. Reuse and Recycling options and information are constantly changing. We encourage anyone with suggested revisions to contact us at publicworks@fitchburgwi.gov or 270-4260 to help us keep this guide current. Updates will be made available at: www.fitchburgwi.gov/solidwaste. Specific questions not answered by this guide can be directed to Pellitteri Waste Systems at 608-257-4285.

LAST REVISED JANUARY 2021

2021 RECYCLING GUIDE FOR THE CITY OF FITCHBURG

The information contained in this Recycling Guide has been compiled from a variety of sources. Because reuse and recycling options are constantly changing, some facilities may have revised the types of materials they take. Make sure you find out the terms and conditions that are required for certain materials. Always call ahead to confirm hours of operation and ensure acceptance of materials you wish to reuse or recycle.

This guide should not be construed as a recommendation or endorsement by the City of Fitchburg. This information is being provided as a public service to help reduce the amount of materials landfilled and increase the conservation of resources.

AEROSOL CANS

If empty - place in blue recycling cart

If not empty - take to **Dane County Clean Sweep**, 7102 US Hwy 12

Open Monday-Friday 7am – 2:45pm, Sat. 8-10:45am www.danecountycleansweep.com

AMMUNITION - See “Explosives”

ANIMAL WASTE - See “Pet Waste”

ANIMALS, DEAD

Small animals in road: Call Fitchburg Public Works Department 729-1720

Small animals on your property: Contact a private pest control service if you do not wish to dispose of them yourself.

Dead Deer: The Wisconsin Department of Natural Resources 266-2621 (DNR) is responsible for the collection of dead deer from the roadside.

ANTIFREEZE

Recycling

Many automotive service stations

(Refer to: <https://landfill.countyofdane.com/recycle-locations>)

Disposal

If your household is connected to the sanitary sewer system draining to the Madison Metropolitan Sewerage District, antifreeze can be poured down an indoor drain, such as a laundry tub. Flush with water. Do not do this if you are connected to a septic system.

APPLIANCES, LARGE - includes:

Stoves	Dryers	Furnaces
Humidifiers	Refrigerators	Freezers
Water Heaters	Dehumidifiers	Washers
Dishwashers	Air Conditioners	Microwave Ovens
Vacuum Cleaners		

If appliance works and is less than 10 years old:

Contact a used appliance store or charitable organization to arrange for disposal:

St. Vincent de Paul various locations 278-2920
www.svdpmadison.org

Will take large or small appliances that are clean and in working order. No toaster ovens or appliances with frayed or electrical-taped cords. Home pick-up may be available.

If appliance does not work or is more than 10 years old:

Take the appliance to a DNR-licensed disposal facility. Some disposal facilities also offer pick-up services. Fees may apply. Some items may not be accepted, call for info and pricing.

All Metal Recycling	1802 S. Park St	255-0960
Alter Metal Recycling	4400 Sycamore Ave	241-7191
File13 E-Waste Solutions, LLC	3460 Meier Rd Unit 2	221-1313

Resource Solutions (www.RecycleThatStuff.com)	5493 Express Cir	244-5451
1-800-GOT-JUNK		800-468-5865
Pellitteri Waste Systems		257-4285

Call to arrange for collection. Special pick-up charge is \$45 per appliance with refrigerants and \$35 per appliance without refrigerants.

Note: If you purchased your new appliance from a dealer, check with dealer for disposal of your old appliance.

For other recycling locations in Dane County:

<https://landfill.countyofdane.com/recycle-locations>

APPLIANCES, SMALL – includes: blenders, coffee makers, crock pots, irons, mixers, power tools, vacuum cleaners, fans, etc.

Small metal appliances such as toasters, blenders, etc (nothing larger than a basketball) may now go in your recycle cart.

If the appliance is in working order and less than 10 years old, donate it to one of the organizations below for reuse:

Agrace HospiceCare Thrift Store	118 Junction Rd, Madison, WI 53717	833-4556
Easter Seals Wisconsin	8001 Excelsior Dr #200 www.wi.easterseals.com	277-8288

TIRES

Pellitteri Waste Systems Special collection 257-4285

Call to schedule collection. Charges are as follows:

Car Tire- w/o Rim \$20.00

Car Tire- w/ Rim \$25.00

Truck Tire- w/o Rim (>18" dia.) \$25.00

Truck Tire- w/ Rim (>18" dia.) \$30.00

1-800-GOT-JUNK 1-800-468-5865

Take to any local tire dealer accepting used tires for a small fee

(Refer to: <https://landfill.countyofdane.com/recycle-locations>)

TOILETS - See “Porcelain”

TREE TRUNKS < 6” Diameter - See “Brush”

TREE TRUNKS > 6” Diameter

Cut into 2' lengths and leave at curb with sign (“free firewood”) for anyone to pick up. If firewood is not collected within a day, contact a tree service contractor to remove.

TWIGS

Twigs < ½" diameter and < 12" length may be mixed with yardwaste - See “Yardwaste”

Twigs > ½" diameter or >12" length should be bundled with brush - See “Brush”

TYVEK® ENVELOPES - Small quantities (< 25) can be stuffed inside another used

Tyvek® envelope, turned inside out and mailed to: Tyvek® Recycle
Attn: Shirley B. Wright
8401 Fort Darling Rd
Richmond, VA 23237

For quantities > 25, see

<https://www.dupont.com/tyvekdesign/design-with-tyvek/recycling-tyvek.html>

VACUUM CLEANERS – see “Appliances” - small and large

VEHICLES

Visit the following sites for donation information:

Wheels for Wishes <https://www.wheelsforwishes.org/wisconsin/>

Habitat for Humanity <https://www.habitat.org/support/donate-your-vehicle>

Kars4Kids <http://www.kars4kids.org/donate-car-wi.asp>

Contact the following for recycling information:

All Metal Recycling	1802 S. Park St	255-0960
AA1 Junk Car & Metal Recycling	Madison	444-8240

WINDOWS – See “Glass Windows/Doors”

WOOD – See “Dimensional Lumber”

YARDWASTE

Includes:

grass clippings		leaves	plants
flowers	weeds		vines
small bark pieces		pine cones	twigs < ½” diameter and < 12" long
garden vegetables & fruit		walnuts	straw

Does Not Include:

tree branches	woody plants	brush
holiday trees/greenery	dirt	rocks

Options for disposal include:

Home Compost Bin

Curbside Collection

Place yardwaste at the curb in reusable container(s) no larger than 50 gallons or 50 lbs. The yardwaste contract hauler usually will take all bags, unless you leave a note (e.g. “Please leave bags in bin/under rock”) and a bin or rock for the bags so they don’t blow away. Refer to City Collection Calendar for appropriate collection week.

Fitchburg Recycling Drop Off Site - 2373 S. Fish Hatchery Rd – Daylight hours only

Empty bags into large concrete bunker marked “Yardwaste Only”

Reuse bags or place in bin marked “Yardwaste Bags and Empty Oil Containers Only”

(Refer to: <https://landfill.countyofdane.com/recycle-locations>)

Four R's for Sustainable Living

Reduce

Your actions can prevent waste before it starts. Think before you buy. Think about the environmental impacts of a product, its contents and packaging before you make a purchase. Consider these suggestions:

- Purchase items in refillable containers and buy in bulk whenever possible. Numerous stores in the area offer products in bulk or products suitable for refillable containers.
- Buy concentrated products such as drink mixes, juices and cleaners. Choose products that are packaged in recyclable materials and are minimally packaged or better yet, not packaged at all.
- Bring a cloth bag or a backpack when you go shopping. The best answer to the well-known question of “paper or plastic?” is “Reusable please. I brought my own bags.”
- Make a list before you go shopping to help limit over purchasing.
- Avoid “single-use” products such as disposable razors, pens, lighters, foam/paper cups and plates, plastic utensils, or batteries.
- When hosting a party, use durable, reusable items such as cloth napkins and rigid metal or plastic trays/plates instead of paper napkins and paper plates. If it is a potluck, ask your guests to bring their own plates, cloth napkins, utensils and glasses. Have them bring a container to take home leftovers.
- Rent items that you rarely use, such as power tools and motorized yard equipment. You can also rent plates and flatware for a large affair. You can support a local thrift store and purchase plates, cups and flatware for about the same price of the equivalent disposable products.
- Conserve paper by making double-sided copies, sharing information via email and avoiding unnecessary printouts.
- Eliminate unwanted mail. For information on ways to reduce unwanted mail, see the section on Smart Mail on page 18.
- Plant drought tolerant gardens to reduce grass clippings and use mulch or compost to control weeds and conserve water.

Reuse

There are numerous ways you, or others, can extend the life of products and packaging.

Here are a few ideas:

- Patronize and donate items to thrift stores.
- Shop at garage sales, flea markets, and antiques shops.
- Reuse food storage containers to store leftovers instead of using foil, plastic bags/wrap.
- Reupholster, repair, refinish, or donate furniture.
- Conserve paper by printing on the backside of used paper or make into note pads.
- When considering the purchase of a product, determine if it is repairable or designed to be disposed of when it malfunctions. Spending more to buy a quality product the first time may actually save you money.

Recycle

Gather materials you know can be recycled in an effort to save money, natural resources and landfill space. The following ideas may be helpful:

- Properly prepare your recyclables. Follow the directions your municipality provides.
- Compost your yard trimmings and/or food waste in a compost bin.
- Vermi-Compost your kitchen food scraps in a worm box.
- **BUY RECYCLED!** The materials you place in your curbside recycling carts are used to make recycled content products. Recycling involves collection, separation and re-manufacturing of materials. Recycling is not complete until previously used materials are made into new products that are then purchased as recycled-content products. In order to complete the recycling loop or “cycle”, consumers must buy recycled-content products. Let's “Close the Loop” – for information on where and how to buy recycled content products - see the City of Fitchburg's web site at www.fitchburgwi.gov.

Rethink

Think about things that you can do to improve the “cycle” of materials we use in our daily lives.

- Work with neighbors and friends to increase their participating in the first of the 3-Rs above.
- Contact your local, county, and/or state government to provide feedback on improvements they can make to the “cycle.”

Enjoy a Beautiful Yard — The Natural Way

Generate less waste, use fewer chemicals, conserve water and create habitat in your own backyard. Working with nature is often easier and healthier than working against it. Start with some simple steps such as leaving your clippings on the lawn and composting your plant trimmings at home. Only apply fertilizer if soil tests show it is necessary. Use the free brochures and other information available from the City of Fitchburg and you will be on your way to healthier soils and plants, and a beautiful yard.

Generate Less

- **Avoid over-watering.** Give plants only the water and fertilizer they need; over watering and over fertilizing creates excess plant growth and promotes plant diseases.
- **Plant smart.** Group plants that have similar watering needs together to prevent over watering and excessive plant growth.
- **Plant the right plant for the microclimate.** Consider the amount of light, temperature range and water provided by the site and select plants accordingly. Healthy plants will not need removing and replacing.
- **Avoid over planting.** Allow enough room for the plants to grow to their mature size, eliminating the need to continually prune or remove excess plants later.
- **Minimize turf/grass lawns.** Grass lawns require a great deal of labor and energy to achieve a manicured look. Consider removing any lawn (or part of a lawn) that does not serve an essential function and replacing it with native vegetation.
- **Use more native plants,** which are naturally adapted to local climates and soils, and fewer exotic plants.
- **Do not plant invasive plant species** such as Dame's Rocket or Purple Loosestrife.
- **Replace sheared bushes** with plants that naturally grow to the desired size without shearing. This will generate less waste and save you time in maintenance.

Recycle More

- **Compost at home.** Compost builds healthy soil and reduces the need for commercial fertilizers. Dig compost into your plant beds; use compost as mulch under established plants or top dress your lawn with compost.
- **Mulch.** Mulch paths and around trees and shrubs with fallen leaves and prunings. Mulch reduces annual weed growth by as much as 90%, conserves water, prevents soil compaction, moderates soil temperature, and adds organic matter to the soil.
- **Avoid using pesticides** containing clopyralid or picloram. As found by the United States Environmental Protection Agency, picloram and clopyralid are especially resistant to decomposition and can contaminate compost or mulch made from grass treated with these products, potentially harming vegetation later treated with the mulch or compost.
- **Keep plant trimmings out of the garbage** so they may be processed into compost or mulch.
- **Buy recycled.** Recycled-content products for the garden include edging, tree guards, irrigation equipment, benches, plastic lumber, paving and more.
- **If you hire a landscaper,** ask them to leave the clippings on the lawn, to reuse plant trimmings as mulch under shrubs and to help you start a home composting pile. Use this list as a starting point to discuss ways that they can provide a more environmentally friendly service.

Home Composting is Recycling – Naturally!

Composting at home is a clean and easy way to recycle fruit, vegetables and yard trimmings into a dark, crumbly, soil conditioner that will help your garden thrive.

By composting at home, you can:

- Build healthy soil, making plants resistant to disease and pests
- Cut down on chemical pesticides and fertilizers
- Reduce the amount of garbage going into landfills

Purchase or Build a Low Cost Compost Bin!

Compost bins make it easy to recycle your yard and kitchen trimmings at home. Every spring Dane County offers residents a chance to purchase composting bins at a discount price. Home compost bin patterns are also available for a wide variety of low cost units you can make yourself.

Leave your Clippings on the Lawn — Grasscycle!

What is Grasscycling?

Grasscycling is the natural recycling of grass by leaving clippings on the lawn when mowing. Grass clippings decompose quickly and release valuable nutrients back into the soil. Grasscycling is simple, easy, saves you money, and it works!

Why Grasscycle?

- It saves you time – no more bagging
- It saves you money – less fertilizer is needed
- Promotes a healthier lawn – clippings contain valuable nitrogen
- Reduces air pollution – fewer loads hauled to the drop off or compost site

Grasscycling is as easy as 1-2-3!

1. **Mow regularly and mow dry.** The shorter the clipping the faster it decomposes. Dry clippings are evenly distributed and fall between the living blades of grass and disappear from view.
2. **Maintain your mower.** Keep the deck clean and blades sharp. A clean cut limits water stress, lowers the chance of disease entry and minimizes brown tips.
3. **Leave the clippings on the lawn.** You don't need special equipment to grasscycle – simply remove the bag from your mower and leave the clippings on the lawn. A mulching retrofit kit can be used on your existing mower and includes a mulching blade and block for the discharge chute.

Smart Mail

We all receive unsolicited mail. Each time you enter a contest, make a donation, buy something on credit or with a check, or order a product by mail or send in a subscription or warranty card, order something online, there is a good chance that your name and address will be added to a mailing list. These lists are valuable commodities that are regularly sold or traded. With a few smart steps, you can minimize unwanted mail and continue to receive the mail you really want.

Here's what you can do to reduce unwanted mail:

1. Write, call or email organizations requesting that your name and address be removed from their mailing lists. Be sure to include the original mailing label with your name and address. The label often has special codes that make processing your request easier, and help assure removal of your name.
2. Write or call mail list brokers and ask to be placed on their "suppress" files. Listed here are just a few of the many organizations that you can contact to have your name removed or "suppressed" on mailing lists.

Household Hazardous Waste

Leftover paints, pesticides, household cleaners, automotive fluids and products, household and rechargeable batteries, fluorescent lamps and other common items we have or use in our homes or at work can be harmful and hazardous. Many of these products contain chemicals that are poisonous, toxic, corrosive or flammable. These products may contaminate the environment when poured on the soil, down a household or storm drain, or dumped in the garbage. It's potentially harmful to our environment and, in most cases, unwise to put these materials into the trash or down the drain. The Dane County Clean Sweep is a drop-off facility for household hazardous wastes. The facility, located in Madison, is available to all Dane County residents on a limited drop-in and/or appointment basis. The facility is generally open from 7:00a.m. to 2:45p.m. from Tuesday through Friday, and 8:00a.m to 10:45a.m on Saturday.

For more information about how to properly dispose of hazardous wastes, visit www.danecountycleansweep.com.

Household Medical Waste - Sharps

Household medical waste items (aka sharps) include items such as needles, syringes, and lancets. Sharps are a health concern to refuse collectors, recyclers, and landfill employees. They can puncture workers and expose them to infectious diseases. State regulations require that sharps be safely packaged and treated before they are allowed in a landfill.

All household medical sharps must be kept separate from refuse and recyclables and placed in red plastic sharps container. Approved containers are available at most pharmacies and clinics. All containers should be puncture-resistant and visibly labeled with the words "biohazard", "infectious waste", "sharps", or the biohazard emblem. Always store the container out of the reach of children.

See "sharps" on Page 13 for Sharps drop-off stations in Fitchburg. You should contact the facility directly for the requirements of their program before bringing them your medical sharps. You can also call your local DNR office (275-3298) or the American Diabetes Association (1-800-342-2383) for locations of registered sharps collection stations.

Appliances

Large household appliances, also called "white goods", include stoves, refrigerators, freezers, washing machines, dryers, and water heaters. Under state law, all large appliances are banned from landfill disposal. In addition, federal and state law requires that hazardous materials contained in appliances be removed prior to recycling. Refrigerators, freezers, air conditioners and water coolers contain refrigerants, such as ozone-depleting Freon, which must be evacuated by a professional. In addition, these and other appliances contain compressor and transmission oils and components which may contain mercury and PCBs. A trained professional must remove refrigerants, oil and other hazardous materials.

Some appliance dealers may purchase or pickup used appliances in good condition. Pellitteri Waste Systems (257-4285) provides curbside pickup for a fee; call for more information on curbside pickup services. See "Appliances" on pages 2 and 3 for suggested disposal locations. Be sure to verify any specific requirements in advance of disposal.

Construction & Demolition Debris

The City of Fitchburg requires the reuse and/or recycling of materials from certain construction, roofing, remodeling, and demolition projects, as stated in City Ordinances. Construction and demolition debris such as wood, drywall, corrugated cardboard, and shingles can all be recycled or reused. A full list of accepted materials is shown below. You can find more information on the C&D Recycling Facility at <https://landfill.countyofdane.com/services/construction>.

Wood (plywood, tree trimmings, pallets, cabinets, doors, dimensional lumber, etc.)	Vinyl siding	Aggregate (concrete, rock, brick, stone, porcelain, tile)
New, unpainted drywall (standard, blue board, green board)	Metal (sheet metal, window frames, pipe, lamps, wire, etc.)	Cardboard
Home demolition	New residential/commercial construction waste	Commercial loads containing large quantities of pallets and cardboard shipping materials

*Loads should contain 60% or more of the listed items.

These materials can be dropped off at the Dane County Sanitary Landfill Construction and Demolition Recycling Facility (838-9555). Loads of C&D are weighed in and out at the scale house similar to materials heading to the landfill. When it arrives, the comingled C&D materials are sorted into recyclable categories. This process and facility reduces the amount of reusable products sent to the landfill.

FITCHBURG RECICLABLES EN LA ACERA

RECICLABLES*	EJEMPLOS	PREPARACIÓN
Containers		
Botellas y frascos de vidrio	botella de bebida, bote de pepinillos	enjuague y limpie
Latas de acero (estaño)	lata de sopa, lata de alimentos para mascotas, lata de aerosol	enjuague y limpie
Latas de aluminio	lata de refresco, lata de cerveza	enjuague y limpie
Pequeños artículos de metal	ollas y sartenes, pequeños accesorios de plomería, pipas	eliminar piezas que no sean de metal
Pequeños electrodomésticos de metal	tostadoras, batidoras, etc (nada más grande que una pelota de baloncesto)	eliminar piezas que no sean de metal
Bolsas de plástico*	Bolsas de mandado, bolsas de papel periódico, bolsas de limpieza NO bolsas negras o marrones	empacarlo en una bolsa de plástico transparente que no sea más grande que una pelota de baloncesto
 PET Plastico	botella de soda, termoformado de frutas	enjuague hasta que esté limpio, atornillar la tapa de plástico
 HDPE Plastico	jarra de leche, contenedor de margarina	enjuague hasta que esté limpio, atornillar la tapa de plástico
 PVC Plastico	botella de cera para pisos	enjuague hasta que esté limpio, atornillar la tapa de plástico
 LDPE Plastico	tapas de contenedores o latas de café	enjuague hasta que esté limpio
 PP Plastico	botella de jarabe	enjuague y limpie, atornillar la tapa de plástico
 PS Plastico	contenedores de rostisería o salchichonería	enjuague hasta y limpie
 Other Plastico	botellas de ketchup	enjuague hasta que esté limpio, atornillar la tapa de plástico
Artículos en Papel		
Periódico	periódico, incluyendo anuncios	colocar dentro del carrito
Papel	papeles escolares o de oficina	retire la cinta, clips de papel, clips de carpeta, etc.
Papel en trizas	pedazos pequeños o trozos de papel	poner en una bolsa de plástico transparente
Correo basura	anuncios, sobres	retire la cinta y los clips
Revistas	revistas, catálogos de pedidos por correo	colocar dentro del carrito
Bolsas de papel	bolsas de supermercado marrones, etc.	colocar dentro del carrito
Cartones de cartón	cajas de cereales, pastas, y zapatos cartones de huevos, leche, jugo, y sopa	aplanar para ahorrar espacio, colocar dentro del carrito
Cartón corrugado	cajas de envío	aplanar para ahorrar espacio, colocar dentro del carrito

Coloque los reciclables en un carrito de reciclaje azul para la recolección en la acera. Los reciclables que no caben en el carrito de reciclaje se pueden colocar en una bolsa transparente o en un recipiente abierto al lado del carrito de reciclaje para la recolección en la acera.

Visitar www.fitchburgwi.gov para más información.

FITCHBURG CURBSIDE RECYCLABLES

RECYCLABLES*	EXAMPLES	PREPARATION
Containers		
Glass Bottles & Jars	beverage bottle, pickle jar	rinse clean
Steel (tin) Cans	soup can, pet food can, aerosol can	rinse clean
Aluminum Cans	soda can, beer can	rinse clean
Small Metal Items	Pots & pans, small metal plumbing fixtures & pipes	Remove pieces that are not metal
Small Metal Appliances**	Toasters, blenders, etc (nothing larger than a basketball)	Remove pieces that are not metal
Plastic Bags*	Grocery, newspaper, dry cleaning, etc (SPI #2 & 4) –no black or brown bags	Bundle in a see-through plastic bag no larger than a basketball
 PET Plastic	soda bottle, fruit thermoform	rinse clean, screw plastic lid on
 HDPE Plastic	milk jug, margarine container	rinse clean, screw plastic lid on
 PVC Plastic	floor wax bottle	rinse clean, screw plastic lid on
 LDPE Plastic	lids from tubs or coffee cans	rinse clean
 PP Plastic	syrup bottle	rinse clean, screw plastic lid on
 PS Plastic	Deli containers	rinse clean
 Other Plastic	ketchup bottles	rinse clean, screw plastic lid on
Paper-based Items		
Newspaper & Inserts	daily newspaper, including ads	place inside cart
White Paper	school or office papers	remove tape, paperclips, binder clips, etc.
Shredded Paper	small pieces or shreds of paper	contain inside see-through plastic bag
Junk Mail	advertisements, envelopes	remove tape, paperclips, etc.
Magazines	magazines, mail order catalogs	place inside cart
Paper Bags	brown grocery bags, etc.	place inside cart
Paperboard Cartons	cereal, pasta, and shoe boxes egg, milk, juice, & soup cartons	flatten to save space, place inside cart
Corrugated Cardboard (OCC)	moving/shipping boxes	flatten to save space, place inside cart
Place recyclables in blue recycling cart for curbside collection. Recyclables that don't fit in recycling cart may be placed in a see-through bag or open container next to recycling cart for curbside collection. Visit www.fitchburgwi.gov for more information.		

*Shredded paper and clean plastic bags should be separately contained in see-through plastic bags no larger than a basketball. Brown and black plastic bags are not accepted for recycling.

** Small metal appliances only - smaller than a basketball
