RE: Woods Hollow Childrens Center submittal for Architectural and Design Review Application

Dear Sonja,

On Behalf of our client, Woods Hollow Children’s Center, we are pleased to transmit the following information for your staffs review and consideration by the City of Fitchburg’s Plan Commission. Based on earlier discussions and emails we are looking for a staff approval on this project. We are requesting that this project be placed on the September 18th Planning Commission Agenda for a Site Plan and Design review and approval and would grant Promega permission to begin site work, site utilities, footings, and foundations when the plan review is are complete and necessary early start permits have been acquired. We believe the transmitted information conforms to your submittal requirements for review and approval outlined on the Architectural and Design Review Application.

We are requesting the early start review and approval to stay ahead of the winter weather and frost.

Please accept the following documents:

- ADR Application.....
- Site Plan, Utility, grading, erosion and storm water plans.....Sheets C100, C101, C300, C400
- Landscape Plan.....Sheet L100
- Building Elevations and Floorplans.....Sheets A001, A100, A200, A300

We look forward to working with you, your staff and Commissioners. Please feel free to contact myself or Deb Hatfield @ MARS (608-839-6205) with questions and we will work to get the answers and additional information necessary to facilitate the review and approval process.

Sincerely,

Steve Wellenstein,

**Architectural Design and Review Application for the Proposed Addition to the existing Woods Hollow Children's Center Facility (WHCC) located on East Cheryl Parkway, Submitted August 21, 2018**

**Narrative**

WHCC is looking to make an expansion of its current facility. The expansion would consist of an indoor large activity room (gym) and an Older Children's room on the main level for a total expansion space of 9,383 Sq. Ft.. These spaces will not increase the current capacity of the facility but provide space for these functions to be in the proper space and location. At the current time, WHCC does not have an indoor activity room nor an ADA accessible Older Children's room. The project will include an above grade Gym and Classroom at 5,925 sq. ft. Below grade, there will be a 3,458 sq. ft. addition that will house a new HVAC system and storage room. The site work consists of the relocation of a trash enclosure to the west end of the parking lot and the relocation of utilities to accommodate the addition. The parking count will remain the same since there is no expansion of staff or children.

The Addition is located on the West side of the building. The addition is visible from the street and shielded by a tree line to the North that obscures the addition from the North. The west elevation faces an empty lot yet to be developed.

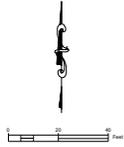

The proposed building has the following characteristics:

Principal exterior materials- Brick, Stucco and a metal roof to match existing materials and color.

Landscape – Grass to be replaced around disturbed area, with additional plantings provided around the south and west pf the facility and an emphasis on the front entrance with a new ramp to the upper parking lot.

Stormwater strategy – Will follow existing stormwater flow with the addition of a drain to the storm sewer system to alleviate a drainage issue across the existing upper parking lot.
