|--------------|--------------|-------------------|
| 6/8/16       | 1/1/19       | 1/1/14            |

**Definition of charges:**

**Residential Class** - Customers that have water service provided for residential or domestic purposes.

**Non-Residential Class** - Customers include businesses, churches, apartment buildings - serving three or more family units, schools, and government

**Irrigation Class** - Customers who use a second meter to measure water used for lawn sprinkling or other outside uses.

**Meter Charges** - Fixed charges for having water or sewer service whether any volume is used or not

**Water Volume Charges** - Charges that are based on water usage

**Sewer Volume Charges** - Charges that are based on water usage

**Private Fire Protection** - Charges consisting of a connection to the water main for fire protection systems such as automatic fire sprinkler systems, standpipes, and private hydrants

**Public Fire Protection** - Charges are for use of hydrants for fire protection service only and such quantities of water as may be demanded for the purpose of extinguishing fires within the service area. This was previously on your tax bill.

**Stormwater Charges** - Charges based on impervious areas -driveways, houses,(anything other than grass is charged)

**WATER ORDINANCE SEC. 40-394**

Water losses that occur on the premises, which are registered by the water meter, shall be the responsibility of the customer. It is the sole responsibility of the customer to prevent leakage in all piping and fixtures on the premises at and beyond the metering point, and that any leaks or losses of water, registered by the meter will be billed at the filed rates.
