### SCOOP'N DA POOP

It's very important to pick up after your pet all year long, especially during winter. If not picked up, pet waste can be encased in snow and ice, ready to be carried away with the melting snow. The bacteria and nutrients found in pet waste are much more likely to make their way to the nearest storm drain. Rain and melting snow does not go to the wastewater treatment plant. Rather, it goes to the nearest Fitchburg creeks which drain downstream to lakes and rivers. Be sure to continue to scoop the poop all year 'round and do your part to help keep Fitchburg's creeks clean and pet waste free.
